

Linked Instincts Collection

by Catherine J. Martzloff

THE COLLECTION

Linked Instincts, explores the quiet pull of intuition and the connections between objects, memory, and light. Working within the square format, I use glass, vessels, and layered backgrounds to create spaces that reveal and conceal at once. Each painting carries its own story, yet together they are linked by instinct, vibrant color, a sense of reflection and sometimes repeated objects.

THE ARTIST **catherine**

Catherine is an East Coast oil painter whose work explores the quiet presence of everyday objects and the emotional resonance of light and shadow. Through still life compositions, she weaves together past and present, balancing what is seen with what is sensed. Her vibrant, intuitive use of color and form reflects an internal landscape – a visual language shaped by memory, mood, and a spiritual connection to beauty. Each painting becomes a meditation on time, presence, and the subtle ways light lives within and around us.
